

# Evolution HR

## Total Integration

- Shares a single database
- Eliminates duplicate entry

## Make HR Work for you...

Information is central to managing your success. Evolution HR module allows you to expand your employee information database. With evolution HR you will have the ability to efficiently manage, pay and retain your employees.

## Evolution HR Highlights

**Integration** is the key element to building and maintaining a reliable HRIS. Evolution payroll and Evolution HR share one common database, eliminating duplicate entry & imports.

**Comprehensive** tracking of employee personal information, performance reviews, benefits, skills, injuries & much more.

**Customized Tools** designed to help mid-sized companies, in any industry, stay on top of vital HR record keeping, and comply with governmental reporting requirements.

**Applicant Tracking** is a bonus. Evolution HR includes the ability to track applicants skills and interview data.

**Evolution Report Writer.** Access all of your employee information to customize reports and file outputs.

**Extensive Employee Information** at your fingertips makes Evolution HR a valued labor-saving management tool for your company!
